Safe and sound

THE range of adorable eco playthings and award winning gifts for little children from **Noonoo**® has been expanded to include alternative 'clean' textiles - bamboo, silk and crochet alpaca - to its own patented felted lambswool textile. Noonoo's trademark bugs and crawly things are freehand embroidered using child art as source of inspiration and comfort. Showing worldwide, Noonoo® continues to buck the general trend and continues to reinforce its view that quality, craftsmanship and design doesn't have to cost the earth. Noonoo® supports and practices ethical and ecological manufacturing.
